

# KOLD KATCHER

INCORPORATED

HEAT TRACING SYSTEMS

## Solar Power Skids

*Industrial Power Solutions*

[www.koldkatcher.com](http://www.koldkatcher.com)

### APPLICATIONS

Power ready systems for oil & gas sites

- Pre-wired power systems
- Provides power for
  - LED Lighting
  - RTU
  - Flow meters & Level monitoring
  - Gas detection alarms
  - Security systems
  - Cathodic protection
  - Emergency power
  - 12 & 24 VDC systems

### DEPENDABILITY

- Field – proven reliable high efficiency design
- Construction friendly lay out
- Low maintenance / Easy installation
- Plug and Play

### DESIGN FEATURES

- Sealed maintenance free batteries
- Temperature compensated charging
- Insulated weatherproof battery/ controller box
- Available with integrated glycol heat loop
- Industrial strength modular skid – available in BLM colors

*Ideal for remote locations and installations. Industrial applications where performance, endurance and reliability are a must.*

*See reverse for performance specifications and ordering information*

## Model: Solar Power Skids

Model No.	Battery Capacity (Amp Hours)	Amperage Rating Capacity	Mounting
100-100-12	100	10	Pole
200-280-24	280	20	Ground
400-560-24	560	20	Ground
600-840-24	840	30	Ground
